

The screenshot shows a web browser window with the URL <https://www.codecademy.com/en/tracks/jquery>. The Codecademy logo is in the top left, and a user profile picture is in the top right. The main heading is "jQuery" with the subtitle "Learn how to make your websites interactive and create animations by using jQuery." Below this is a green button labeled "FINISHED". A statistics bar shows "500k+ enrolled students", "3 Hours estimated course time", and "Beginner required technical level". The course content is displayed in a grey box with two items: "INTRODUCING JQUERY" and "JQUERY FUNCTIONS". Each item has a green checkmark icon, a title, a description, and a right-pointing arrow.

## INTRODUCING JQUERY

 **Introduction to jQuery**  
You know how to create websites, but not how to make them respond to user interaction. For that, we'll be taking advantage of a new tool: jQuery!

## JQUERY FUNCTIONS

 **jQuery Functions and Selectors**  
Now that you know a little jQuery, let's dive into some details: how functions work and how we can select a wider range of HTML elements to manipulate.
